Work Experience

84.51° (a subsidiary of The Kroger Co.)

Data Scientist

2022 – Present

- Partnered with numerous Consumer Packaged Goods (CPG) stakeholders to deliver customized, end-to-end analytics solutions, addressing complex business challenges and strategic objectives
- Developed and maintained multiple GitHub repositories in order to add new features to our existing solutions and ensure compliance
- Conducted quality assurance reviews of team members' work to ensure quality and accuracy in deliverables

The Kroger Co. (Kroger Health)

Business Analyst, Operations

2020 – 2022

- Automated all manual Excel-based reporting using Power BI, resulting in a 25% reduction in analysts' time and enabling them to take on more strategic projects
- Led the development of internal Covid-19 analytics reports, empowering leadership to track KPIs while collaborating with the CDC for national Covid-19 analytics
- Developed reporting tools to identify incorrectly billed prescriptions, enabling store teams to resubmit claims and recoup thousands of dollars. This initiative prompted system updates that prevented future billing errors

Financial Analyst

2019 – 2020

- Developed and maintained financial models for various teams within Kroger Health to track profitability
- Generated ad-hoc financial and accounting reports as needed
- Processed invoices in compliance with GAAP principles

Business Analyst

2018 – 2019

- Managed and maintained reporting processes for key business stakeholders
- Pulled and summarized adhoc reports as needed

Asset Protection Analyst

2017 – 2018

- Developed reports to identify fraud and theft in Kroger pharmacies
